Ashley:

Attached is the semi-annual AFO information in support of the 106 Grant reporting obligations. The registered spreadsheet lists all AFOs that have been registered under the general permit. The pending spreadsheet list those that have sent in their NOIs that have not been registered due to an incomplete application, either not plan or issues with the submitted plan. The inspection list has information on the inspections that we have conducted and the enforcement actions lists the enforcement actions.

Please let me know if you require anything else.

Gary
